The location of IOI Resort City and the Subject Properties located within IOI Resort City are shown in the maps below.

*Source: Independent Property Market Report*

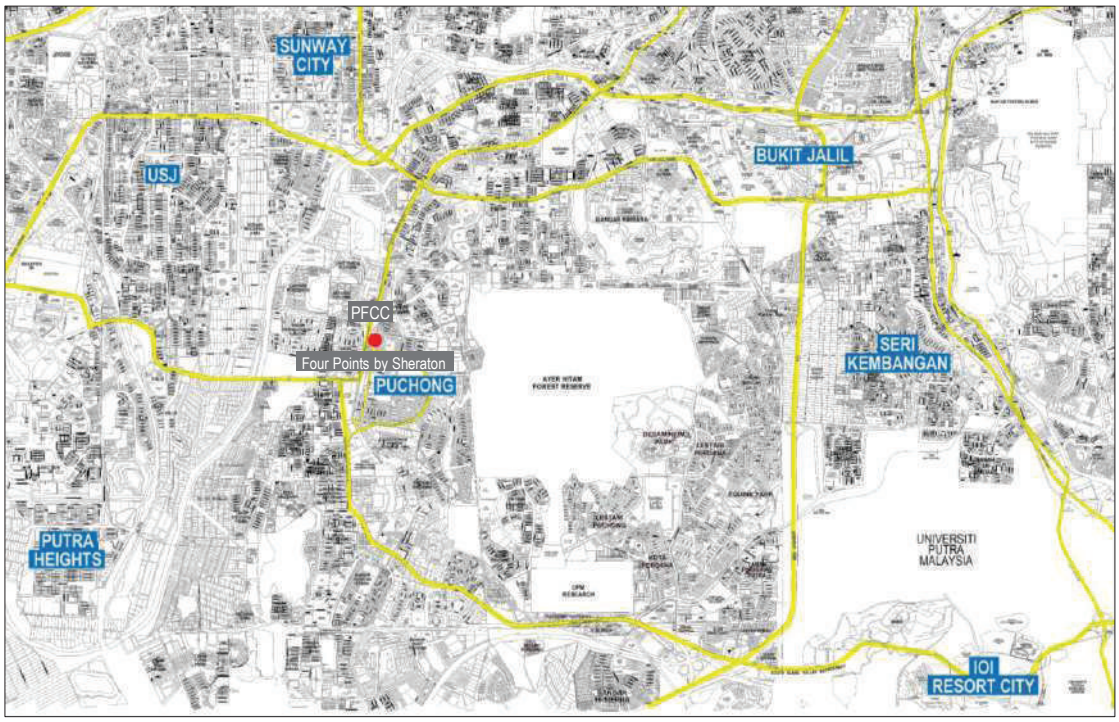

*Source: Independent Property Market Report*

***Puchong***

PFCC Towers and Four Points by Sheraton Puchong (collectively comprising 7.5% of the Subject Properties by Appraised Value as at 31 May 2026) are located in PFCC, Bandar Puteri Puchong, Selangor, which is a mature integrated township developed by IOIPG and comprises retail, commercial, hotel and residential components.

Puchong is located within the Petaling district in Selangor and is surrounded by established areas such as Subang Jaya, Petaling Jaya, Bandar Kinrara, Bukit Jalil, Putrajaya and Cyberjaya. Bandar Puteri Puchong in particular is accessible to Putrajaya, Cyberjaya, KLIA and nearby locations such as Subang Jaya, Petaling Jaya and Bukit Jalil, and connected to major destinations via public transport and highways. PFCC Towers and Four Points by Sheraton Puchong are also located within walking distance (approximately 500 meters) from Taman Perindustrian Puchong LRT Station on the Sri Petaling Line.

The location of PFCC (in which PFCC Towers and Four Points by Sheraton Puchong are located) in relation to its surrounding area is shown in the map below.

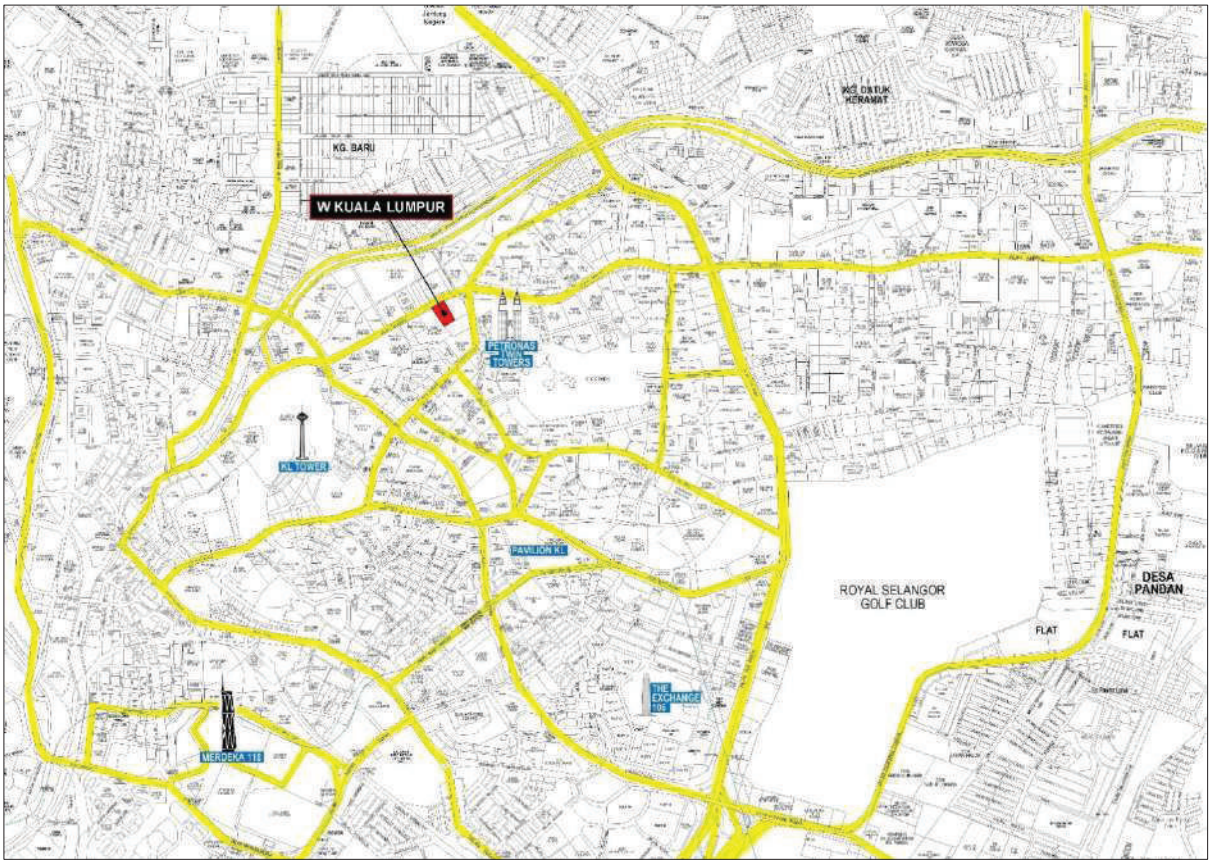

*Source: Independent Property Market Report*

***KL City Centre***

W Kuala Lumpur is situated within the KL City Centre's Golden Triangle, which is a prime office location and accommodates the largest concentration of high-rise office buildings in the Klang Valley and hosts the main retail and hotel belt of Kuala Lumpur. W Kuala Lumpur offers prime walking distance access to iconic attractions like the Petronas Twin Towers and Suria KLCC Shopping Centre. The KLCC LRT Station on the Kelana Jaya Line and the Persiaran KLCC MRT Station on the Putrajaya Line are within walking distance from W Kuala Lumpur as well. The hotel is also easily accessible from major highways linking KL to various parts of the Klang Valley including KLIA.

The location of W Kuala Lumpur in relation to its surrounding area is shown in the map below.

*Source: Independent Property Market Report*

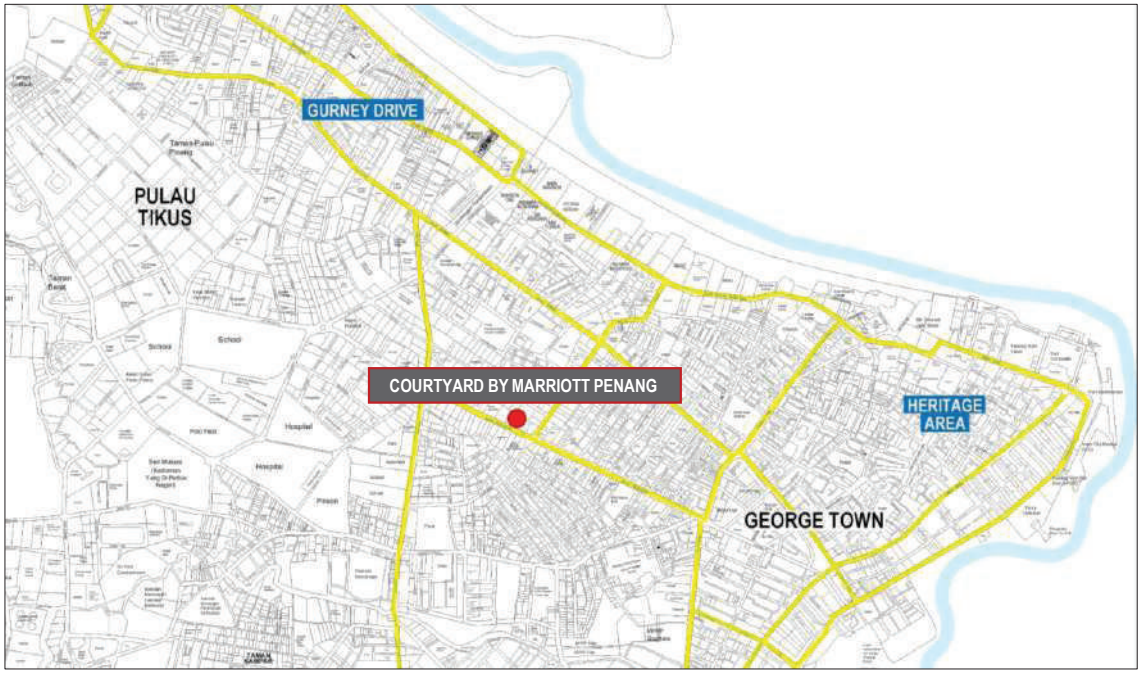

***Penang***

Courtyard by Marriott Penang is located at Jalan Macalister within George Town, Penang, which is a UNESCO World Heritage site.

The historic city of George Town is bounded by the Straits of Malacca, Love Lane, Gat Lebuh Melayu, Lorong Carnarvon and Lebuh Carnarvon, which accommodate more than 1,700 units of historic buildings, some of which are used as museums, boutique hotels, places of worship, government office or public space, as well as tourist attractions.

Courtyard by Marriott Penang has direct frontage to Jalan Macalister which is one of the main thoroughfares connecting different parts of the city. The hotel is also close to major commercial centres and places of interest and has easy access to major highways such as Tun Dr Lim Chong Eu Highway which provides direct access to the southern part of Penang Island and also links the city with the Penang Bridge and onto the mainland.

The location of Courtyard by Marriott Penang in relation to its surrounding area is shown in the map below.

| **Weighted average** | **38.3** | **42.3** | **53.6** | **67.1** |

***Notes:***

*(1) Putrajaya Marriott Hotel was undergoing refurbishment works which commenced in February 2023 and was operating at a reduced capacity. The refurbishment exercise completed in January 2025 and full room inventory was restored in the FYE 2025.*

*(2) As Moxy Putrajaya only commenced operations in February 2024, the financial information is not available for the FYE 2023.*

*(3) As the acquisition of W Kuala Lumpur was only completed in February 2024, the financial information is not available for the FYE 2023.*

*(4) Calculated since the completion of the acquisition of W Kuala Lumpur in February 2024.*

*(5) As the acquisition of Courtyard by Marriott Penang was only completed in July 2024, the financial information is not available for the FYE 2023 and FYE 2024.*

## 2.3 COMPETITIVE STRENGTHS AND INVESTMENT HIGHLIGHTS

The Manager believes that an investment in IOIPG REIT will offer the following investment attractions to Unitholders:

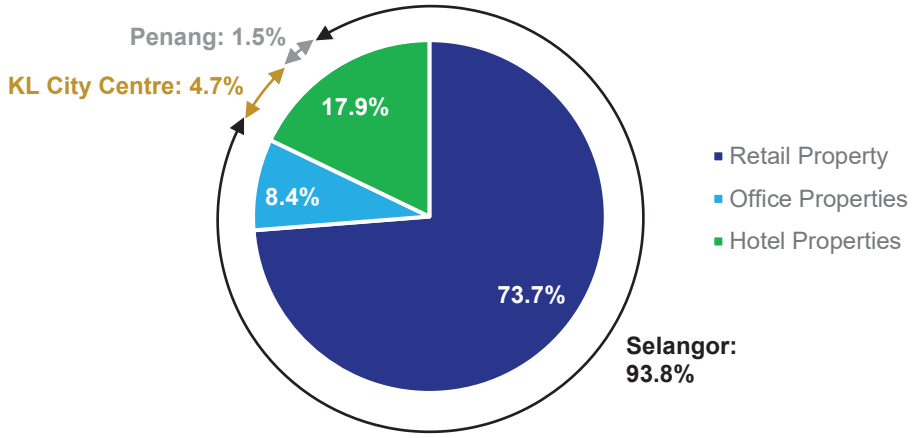

### 2.3.1 Diversified portfolio of freehold assets provides income resilience and enhances portfolio stability

#### (i) Diversified portfolio across the retail, hotel and office sectors with 9 quality freehold assets located in Selangor, KL City Centre and Penang

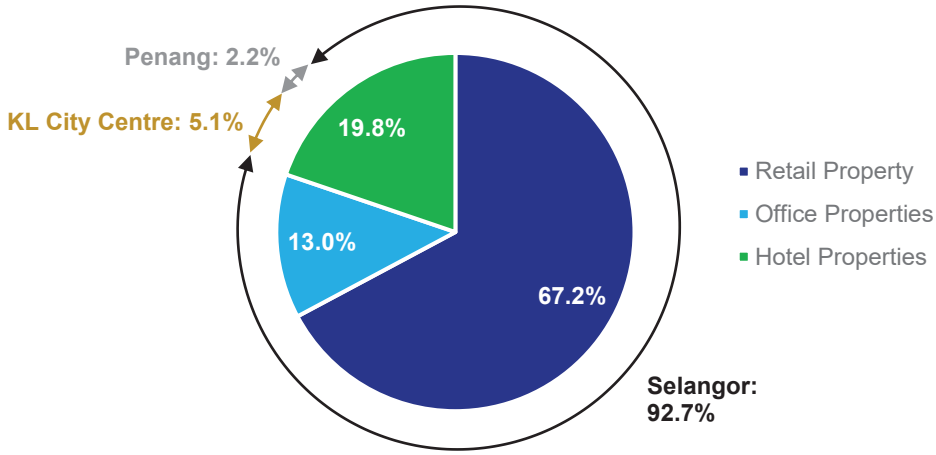

The initial asset portfolio of IOIPG REIT comprises 9 quality freehold assets in strategic locations across Selangor, KL City Centre and Penang. The Subject Properties are diversified across the retail, hotel and office sectors and are valued at approximately RM7.66 billion as at 31 May 2026. The Manager believes that by pursuing a strategy of owning a diversified portfolio of real estate, IOIPG REIT will be able to market itself to, and benefit from, tenants operating across a range of industries. This diversification strategy is expected to contribute towards a resilient portfolio by generating rental income from multiple sources and thus enhancing its income resilience across the same economic cycles.

The following charts illustrate the contribution of each asset sector to the NPI of IOIPG REIT for the FPE 31 May 2026 and the Appraised Value of the Subject Properties as at 31 May 2026, together with a breakdown by location.

**Breakdown of NPI by Sector and Location for FPE 31 May 2026**

**Breakdown of Appraised Value as at 31 May 2026 by Sector and Location**

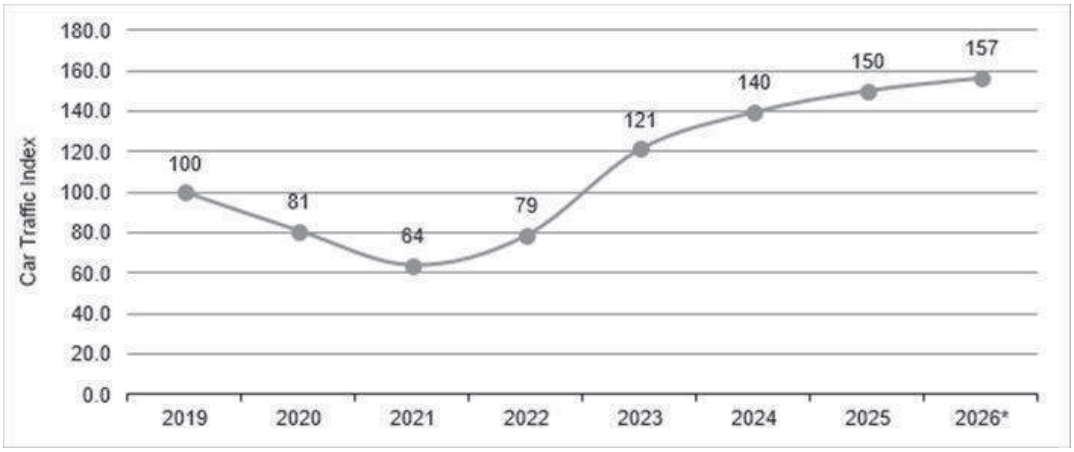

**(ii) Resilient retail sector underpinned by stable economic outlook**

According to the Independent Property Market Report, IOI City Mall is Malaysia's largest retail centre with an NLA of more than 2.5 million sq ft and houses over 850 tenants as at the LPD. IOI City Mall also serves as a major regional retail destination offering a combination of mid-range and luxury brands and comprehensive lifestyle amenities, which appeal to the wider market of the Klang Valley population.

The Retail Property has demonstrated resilience over the past 6 years, maintaining an Average Occupancy Rate of above 95% (save for the FYE 2023 due to the integration of IOI City Mall Phase 2 which completed in August 2022), underpinned by strong domestic demand and robust retail activity. The number of car traffic to the Retail Property had in 2023 surpassed pre-COVID-19 levels recorded in 2019, which continued its growth up to 2025 and is estimated to further increase in the FYE 2026 (as seen in the Retail Property's car traffic index below). The growth can be attributed to the completion of IOI City Mall Phase 2 as the expansion increased the number of available car park bays and further enhanced the Retail Property's capacity to attract a higher volume of physical shoppers. The Retail Property has also seen strong growth in its Rental Income and Average Occupancy Rate, as shown in the chart below, demonstrating strong performance despite its size.

**Car Traffic Index of the Retail Property^**

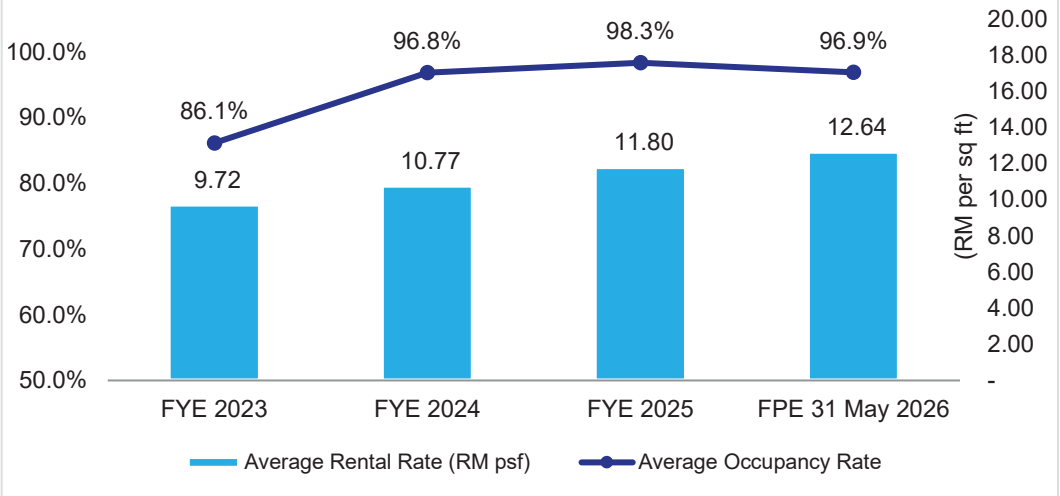

^ *The Retail Property's car traffic index measures the number of vehicles entering the Retail Property and is expressed as a year-on-year growth index based on recorded vehicle entries.*

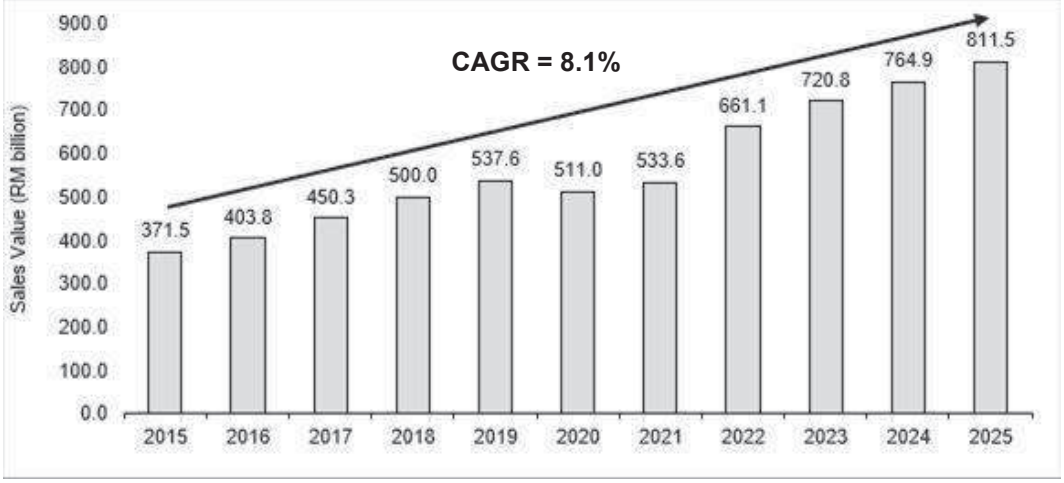

* *The index of 157 has been annualised based on the actual results of the FPE 31 May 2026.*

*Source: Independent Property Market Report*

**Average Rental Income (RM per sq ft) and Average Occupancy Rate of the Retail Property**

Between 2015 and 2025, Malaysia's retail trade sales value grew at a CAGR of 8.1% from RM371.5 billion in 2015 to RM811.5 billion in 2025, primarily driven by strong domestic consumption, and supported by a vibrant economy, festive spending and an expanding middle class population. Between January and July 2026, the retail trade sector sales were RM498 billion.

*Source: Independent Property Market Report*

According to the Independent Property Market Report, Malaysia's retail sector is expected to remain resilient supported by a stable economic environment, resilient domestic demand, targeted policy support and increased tourist activity. The positive retail landscape is expected to underscore the growth potential of the Retail Property.

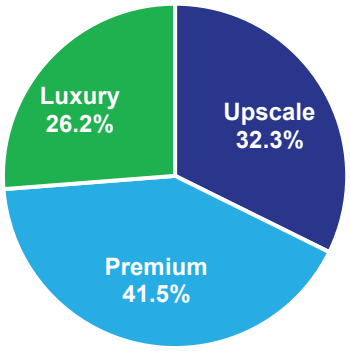

IOI City Mall, which currently comprises IOI City Mall Phase 1 and IOI City Mall Phase 2, is undergoing its third phase of expansion which is expected to contribute an additional NLA of approximately one million sq ft upon its scheduled completion in 2029. For the avoidance of doubt, IOI City Mall Phase 3 does not form part of the initial asset portfolio of IOIPG REIT. The Manager expects that this expansion will increase the attractiveness of the Retail Property and bring additional footfall and a more diverse tenant mix to the Retail Property. Following the completion of such expansion, the Sponsor's vision for IOI City Mall remains for it to be the pre-eminent retail, lifestyle and experiential centre of choice for tenants and shoppers in Malaysia.

**(iii) Well-balanced portfolio of Hotel Properties benefiting from favourable demand drivers of Malaysia's tourism sector and strong brand recognition**

The Hotel Properties within IOIPG REIT's portfolio are diversified across hotel categories, with a well-balanced portfolio across the upscale, premium and luxury segments, catering to a broad range of customer groups across different market segments including domestic and international tourists, government, and the MICE market.

The following chart shows the NPI of the Hotel Properties by segment for the FPE 31 May 2026. W Kuala Lumpur falls under the "luxury" segment, Putrajaya Marriott Hotel and Le Méridien Putrajaya fall under the "premium" segment, and Moxy Putrajaya, Four Points by Sheraton Puchong and Courtyard by Marriott Penang fall under the "upscale" segment.

**NPI of the Hotel Properties by Segment for FPE 31 May 2026**

The tourism industry is a major contributor to Malaysia's economy, contributing 15% of the country's gross domestic product in 2023 and 2024. According to the Independent Property Market Report, Malaysia's hotel industry is poised for strong growth, given the country's diverse tourism offerings and growing business activities from investments and MICE. In 2024, tourist receipts reached an all-time high of RM102.2 billion, exceeding pre-pandemic levels. The number of tourist arrivals to Malaysia was 26.61 million in 2025 and is targeted to reach 47 million international tourists in 2026, as a result of improved connectivity and supported by various tourism promotions gearing for the Visit Malaysia 2026 campaign which has been extended to 2027. As at June 2026, Malaysia has attracted 21.12 million international arrivals, of which 12.85 million were international tourists (i.e. overnight visitors) and the remaining 8.27 million were excursionists (i.e. same day visitors).

The Government's continued investment and initiatives in the tourism sector are expected to stimulate the tourism sector, further driving the demand for hotels. These initiatives include, among others, RM700 million of allocation under Budget 2026 to elevate the tourism sector, of which RM500 million is designated for the Visit Malaysia 2026 campaign, visa waiver for tourists from China and India, tax incentives for tourism project operators who renovate and refurbish their business premises, individual income tax relief for relevant expenses to encourage domestic travel and the upgrading of the Penang airport. These efforts are aimed at attracting higher tourist arrivals and increasing visitor expenditure, where shopping and accommodation consistently account for the largest share of tourist expenditure, and are expected to benefit the Hotel Properties.

Furthermore, the Hotel Properties are branded and operated by the Hotel Managers which are under Marriott International, a leading global hotel management company with an extensive global network and a strong global brand recognition. The Hotel Properties are therefore able to benefit from Marriott International's large reservation network, marketing platforms and brand loyalty programme as well as its wide reach of the target market and provision of an assurance of high-quality services, which provide a captive, stable demand base. In particular, Moxy Putrajaya and Four Points by Sheraton Puchong are among the few 4-star rated hotels in their respective locations which are operated by a global hotel operator.

**(iv) Office Properties located outside KL City Centre remain resilient with the ongoing decentralisation trend**

In the office sector, despite the Klang Valley office market currently experiencing an oversupply, demand for and occupancy rates of offices located outside the KL City Centre are expected to remain resilient as the ongoing decentralisation trend drives businesses to relocate from the city centre to suburban areas. The Office Properties are located outside KL City Centre and are well positioned to attract tenants seeking modern, corporate-grade office environments that are not typically available in the local market. In this regard, the Independent Property Market Report notes that major commercial areas such as Putrajaya and Puchong have recorded rising occupancy rates since 2022.

IOI City Towers are expected to continue to attract high-quality tenants, driven by its strong positioning as premium high-quality Grade A office assets with GBI Silver and Malaysia Digital certifications, and designed with green features. IOI City Towers, being part of a large integrated development with residential, commercial, hospitality and recreational developments also allows it and its tenants to embrace the 'live-work-play' concept.

PFCC, on the other hand, is home to the first Malaysia Semiconductor IC Design Park, a Selangor state-backed initiative launched by the Selangor Information Technology and Digital Economy Corporation (SIDEC) in 2024. According to the Independent Property Market Report, there is limited purpose-built office space available in Puchong as the majority of the commercial space in the area is predominantly within shop offices. PFCC Towers, as the only purpose-built office tower in the immediate vicinity, are hence well placed to attract tenants seeking modern, corporate-grade office environments and prestigious business addresses that are not typically available in the local market. PFCC Towers 2, 4 and 5 are also Malaysia Digital-certified, and PFCC Towers 4 and 5 have recently achieved GBI Certified status.

Please refer to **Appendix B** "Independent Property Market Report" of this Prospectus for further details.

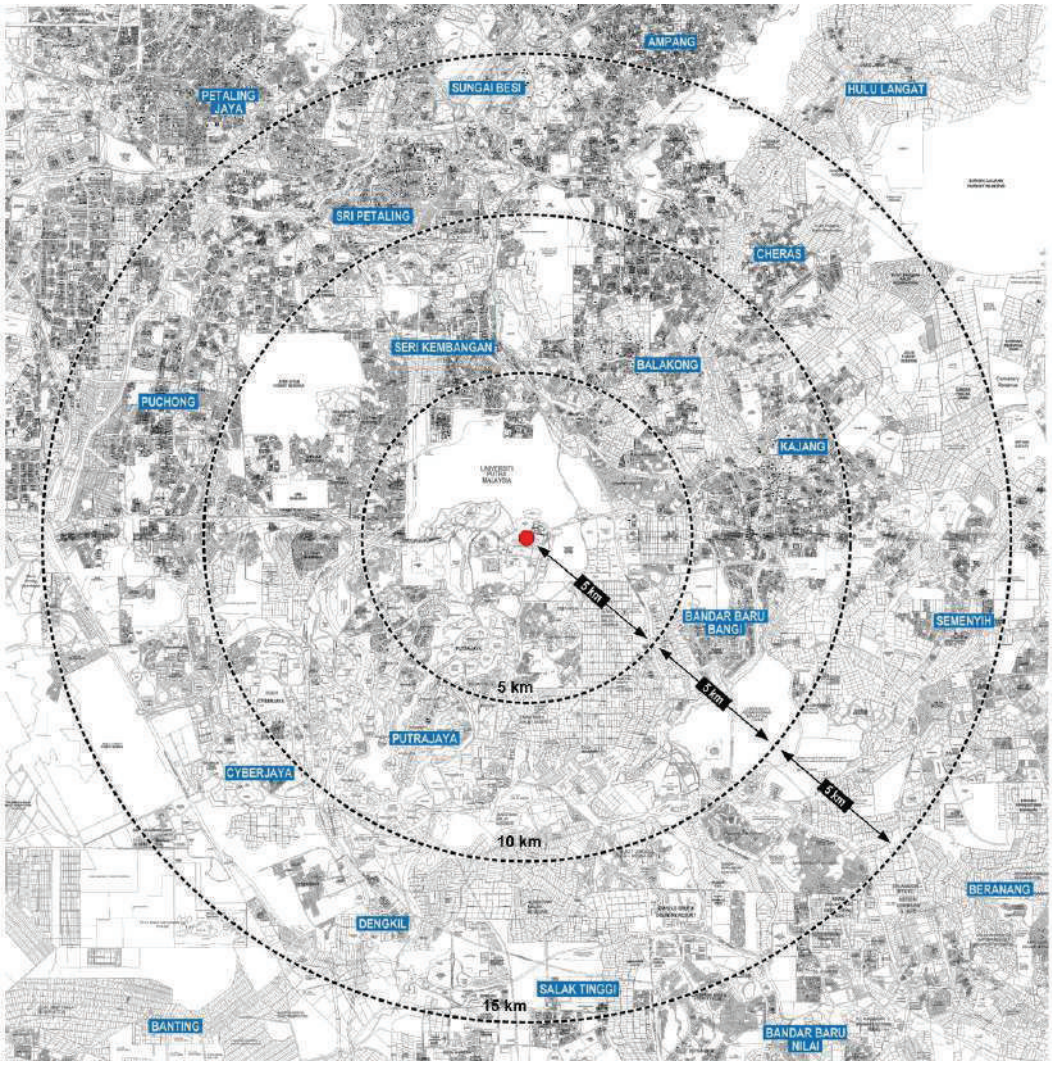

**2.3.2 Prime assets strategically located within the thriving hubs of Greater Kuala Lumpur southern corridor and key gateway cities**

All of the Subject Properties are strategically located within the Greater Kuala Lumpur southern corridor, primarily in the mature townships of Putrajaya and Puchong, as well as key gateway cities, namely KL City Centre and George Town, Penang.

**(i) Majority of the assets are strategically located within IOI Resort City township, benefiting from a wide catchment population from surrounding mature townships**

IOI City Mall, Putrajaya Marriott Hotel, Le Méridien Putrajaya, Moxy Putrajaya and IOI City Towers are strategically located within IOI Resort City, an integrated resort and township development that is located at the northern border of Putrajaya, Malaysia's federal administrative capital city, and located approximately 13 km away from Cyberjaya, Malaysia's leading technology hub. IOI City Mall, along with other Subject Properties situated within IOI Resort City, benefits from a wide catchment population, encompassing surrounding key townships such as Putrajaya, Cyberjaya, Kajang, Bangi, Sepang, Puchong and Seri Kembangan, which have an estimated population of more than 2.5 million persons in 2020 according to the Independent Property Market Report. This provides a captive catchment for the Subject Properties within IOI Resort City given the easy access and connectivity as well as limited competition for high-quality retail malls within the trade area. The close proximity to Putrajaya and Cyberjaya also enables IOI City Towers to leverage on potential spillover and relocation of government agencies and multinational corporations.

The map below illustrates the primary trade area for IOI City Mall which is defined by a 15-km radius.

*Source: Independent Property Market Report*

The Subject Properties located within IOI Resort City benefit from the large integrated development of IOI Resort City, with excellent amenities and connectivity via, among others, the SKVE which links the Subject Properties to other major areas throughout the Klang Valley. Such connectivity ensures the accessibility of these Subject Properties to major cities and townships like Cyberjaya, Puchong, and Shah Alam, as well as popular hotspots like the KL City Centre, providing ample catchment for office users, shoppers and hotel guests. For instance, KL City Centre is located about 30km north of IOI Resort City, and KLIA is located approximately 40km south of IOI Resort City. Due to their proximity to KLIA, the Hotel Properties located within IOI Resort City also serve as a convenient accommodation option for international tourists. The Subject Properties located within IOI Resort City are also located near the award-winning 18-hole Palm Garden Golf Course, which serves as a significant draw for leisure travellers and golf enthusiasts.

**(ii) Subject Properties located within the PFCC cluster in Puchong enjoy excellent connectivity via LRT and major highways**

The Subject Properties located in Puchong, being PFCC Towers and Four Points by Sheraton Puchong, are strategically located within the main commercial hub of Bandar Puteri Puchong, fronting onto LDP. The prominent location and easy access along the LDP offer excellent visibility and accessibility to PFCC Towers and Four Points by Sheraton Puchong, as PFCC is a landmark development and the only purpose-built office in Puchong.

PFCC Towers and Four Points by Sheraton Puchong are also located within walking distance to Taman Perindustrian Puchong LRT Station on the Sri Petaling Line, which integrates with the Kelana Jaya Line at Putra Heights LRT station. Four Points by Sheraton Puchong is also one of the few hotels in its immediate area within Puchong operated by a leading global hotel management company, which caters to the office occupiers within PFCC.

Puchong is also a well-populated area surrounded by established areas such as Subang Jaya, USJ, Seri Kembangan and Bukit Jalil. This provides ample catchment in terms of office users / workers and opportunities to cater to travellers, tourists and industrialist in the neighbouring area.

**(iii) Other Hotel Properties strategically located at prominent tourist hotspots in KL City Centre and George Town, Penang**

In addition, Hotel Properties like W Kuala Lumpur and Courtyard by Marriott Penang are strategically located in the tourist destinations of KL City Centre and George Town, Penang respectively, allowing these Hotel Properties to benefit from their proximity to these major tourist attractions.

W Kuala Lumpur is situated within the KL City Centre's Golden Triangle, the city's prominent commercial and retail district, offering prime walking distance access to iconic attractions like the Petronas Twin Towers and Suria KLCC Mall. W Kuala Lumpur also has an unobstructed view of the Petronas Twin Towers and is located within close proximity to other tourist attractions and iconic buildings in KL like the Bukit Bintang shopping district, Tun Razak Exchange (TRX), Merdeka 118 and the KL Tower. It is also easily accessible to other towns as Jalan Ampang has easy access to major highways which eases traffic dispersal in the area.

Courtyard by Marriott Penang is located within George Town, Penang, which is a UNESCO World Heritage site and promoted by the Penang state government as a tourist, business, medical, MICE, historical and cultural destination. Courtyard by Marriott Penang is located within close proximity to the heritage area and tourist attractions in Penang, and is also one of the few new 4-star hotels in George Town, Penang which is operated by a renowned hotel chain operator. Accessibility to the hotel via public transport is also expected to improve in the future with the completion of the Penang Mutiara Line LRT in 2031.

### 2.3.3 Positive synergies arising from clustering of the Subject Properties and their integration within the IOI Resort City and Bandar Puteri Puchong township ecosystem

7 of the Subject Properties located within the Greater Kuala Lumpur southern corridor are located within the integrated townships of IOI Resort City and Bandar Puteri Puchong, allowing tenants, shoppers and hotel guests of the Subject Properties to enjoy the synergistic benefits of being located in close proximity and connectivity to these integrated mixed-use developments.

The Subject Properties within IOI Resort City benefit from the self-sustaining and cohesive ecosystem within IOI Resort City which encompasses retail outlets, offices, hotels, residences, golf course, recreational park and various lifestyle amenities, allowing shoppers / guests / tenants to work, live and shop within the compound. For example, the synergistic pairing of IOI City Mall and the Hotel Properties located within IOI Resort City allow hotel guests to have an all-encompassing hospitality and retail experience, while demand for retail space at IOI City Mall is expected to be supported by strong tourist arrivals. The availability of amenities such as hotels, retail malls and sports and recreation within steps from the office affords tenants of IOI City Towers with ready and immediate access to the surrounding commercial community, residential and hospitality developments, retail amenities and entertainment offerings. Similarly, hotel guests have convenient access to shopping and leisure activities. This forms a cohesive eco-system with a large and diverse catchment area allowing for a steady stream of shopper traffic throughout the week from the hotel guests and office workers within the integrated development, while the convenient access to the lifestyle amenities offered by IOI City Mall enhances the appeal of the GBI Silver certified IOI City Towers to sustainability-focused corporate tenants.

Similarly, corporate travellers staying at Four Points by Sheraton Puchong benefit from the hotel being integrated with PFCC Towers, a landmark development within the Sponsor-developed Bandar Puteri Puchong township. With its proximity to PFCC Towers, Four Points by Sheraton Puchong has entered into corporate accounts with companies to attract business travellers and to also capture demand from long-stay guests travelling for corporate purposes. Tenants of PFCC Towers also benefit from the meeting and conference facilities available at Four Points by Sheraton Puchong, thereby generating cross-selling opportunities. The complementary amenities available in close proximity within the Bandar Puteri Puchong township such as IOI Mall Puchong, Columbia Asia Hospital Puchong and LRT stations also appeal to quality corporate clients.

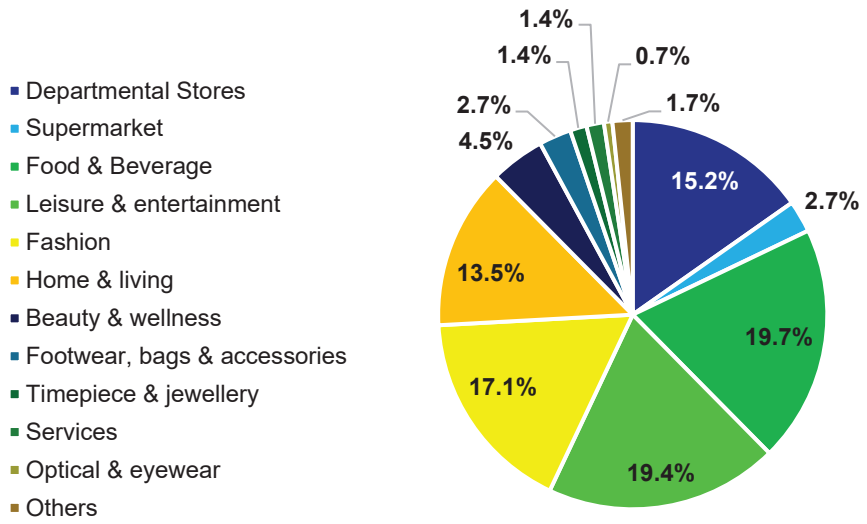

### 2.3.4 Stable cash flows driven by diversified tenant mix and strong occupancy with high renewal rates

#### (i) Diversified tenant base across various trade sectors

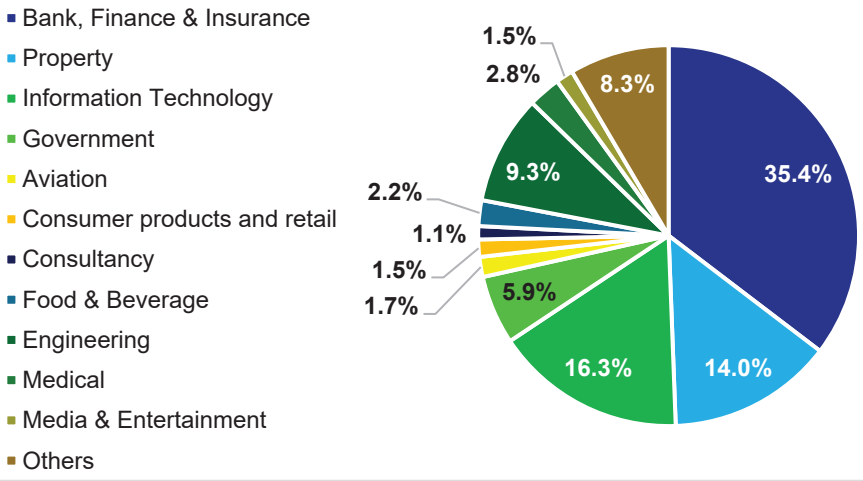

As at the LPD, the Retail Property has a diversified and well-balanced tenant trade sector mix comprising more than 850 tenants operating in various trade sectors, such as departmental stores, supermarket, F&B, fashion, beauty and wellness etc. The Retail Property also features a well curated tenant profile that caters to a broad range of age groups and target markets, ranging from luxury international brands to affordable mass market brands and hosting unique and distinctive offerings as a lifestyle destination such as being home to the largest and only Olympic-sized ice skating rink in Malaysia, a sports centre and the IOI City Farm, all of which sets the Retail Property apart from other shopping malls. With respect to the Office Properties, there are over 150 tenants across the bank, finance and insurance, IT, engineering and government sectors as at 31 May 2026.

The charts below set out the trade sector mix of the Retail Property and Office Properties by percentage of the Committed Occupied NLA as at 31 May 2026. No single trade sector accounted for more than 20.0% and 40.0% of the Committed Occupied NLA of the Retail Property and Office Properties respectively.

**Tenant Mix of Retail Property by Committed Occupied NLA as at 31 May 2026**

**Tenant Mix of Office Properties by Committed Occupied NLA as at 31 May 2026**

In addition, the top 5 tenants of each of the Retail Property and the Office Properties collectively accounted for 21.9% of the aggregate Committed Occupied NLA for the Retail Property and the Office Properties as at 31 May 2026, signifying low concentration risk among tenants.

**(ii) Resilient occupancy rates and rental rates**

The Retail Property and the Office Properties have also demonstrated resilient occupancy rates in recent years with steady increase in rental rates.

Please refer to **Section 2.2.4** "Occupancy profile" of this Prospectus for the Average Occupancy Rates of the Subject Properties.

The following table sets forth information on the Average Rental Rate of the Retail Property and the Office Properties, and the Average Daily Rate of the Hotel Properties for the period indicated.

| | FYE 2023 | FYE 2024 | FYE 2025 | FPE 31 May 2026 |
|---|---|---|---|---|
| ***Retail Property*** | **Average Rental Rate (RM per sq ft)** | | | |
| IOI City Mall | 9.72 | 10.77 | 11.80 | 12.64 |
| ***Hotel Properties*** | **Average Daily Rate (RM)** | | | |
| Putrajaya Marriott Hotel | 295 | 313 | 365 | 351 |
| Le Méridien Putrajaya | 417 | 485 | 489 | 469 |
| Moxy Putrajaya | -(1) | 298 | 295 | 292 |
| Four Points by Sheraton Puchong | 304 | 328 | 336 | 336 |
| W Kuala Lumpur | -(2) | 1,029(3) | 1,118 | 1,123 |
| Courtyard by Marriott Penang | -(4) | -(4) | 453 | 431 |
| ***Office Properties*** | **Average Rental Rate (RM per sq ft)** | | | |
| IOI City Towers | 4.44 | 4.37 | 4.50 | 4.38 |
| PFCC Towers | 4.04 | 4.12 | 4.22 | 4.39 |

***Notes:***

*(1) As Moxy Putrajaya only commenced operations in February 2024, such information is not available for the FYE 2023.*

*(2) As the acquisition of W Kuala Lumpur was only completed in February 2024, such information is not available for the FYE 2023.*

*(3) Calculated since the completion of the acquisition of W Kuala Lumpur in February 2024.*

*(4) As the acquisition of Courtyard by Marriott Penang was only completed in July 2024, such information is not available for the FYE 2023 and FYE 2024.*

**(iii) Supported by AEIs and lease renewals**

There is scope for enhancement of NLA and rental revenue for the Retail Property and the Office Properties through active asset management.

For instance, as part of the asset optimisation strategy of the Retail Property, a series of AEIs involving the reconfiguration, expansion and consolidation of existing lots were undertaken to enhance space efficiency, tenant mix and rental performance of the Retail Property. During the FYE 2025 and up to the LPD, such initiatives increased the total NLA of the Retail Property by approximately 13,468 sq ft and was primarily derived from the reconfiguration of existing lots, expansion into adjoining areas and optimisation of internal layouts, including selected conversion of common areas into lettable space. As a result, the Rental Income of the Retail Property also increased. Solar panels were also installed at the Retail Property and the Office Properties in 2025, and the lobby area and certain facilities of PFCC Towers 1 and 2 are also currently undergoing refurbishment.

Putrajaya Marriott Hotel also fully completed its refurbishment exercise in January 2025 and has ramped up its marketing efforts to boost its occupancy rate. In addition, there are ongoing refurbishment works to refresh and upgrade Four Points by Sheraton Puchong which is expected to be completed in January 2027. Asset enhancement works are also in progress at W Kuala Lumpur to increase the number of rooms in the hotel from 150 to 159 rooms which is expected to be completed in January 2027.

The costs for the aforementioned AEIs will be borne by the Sponsor and are expected to generate potential upside for IOIPG REIT through higher occupancy rates and rental rates / daily rates (in respect of the Hotel Properties).

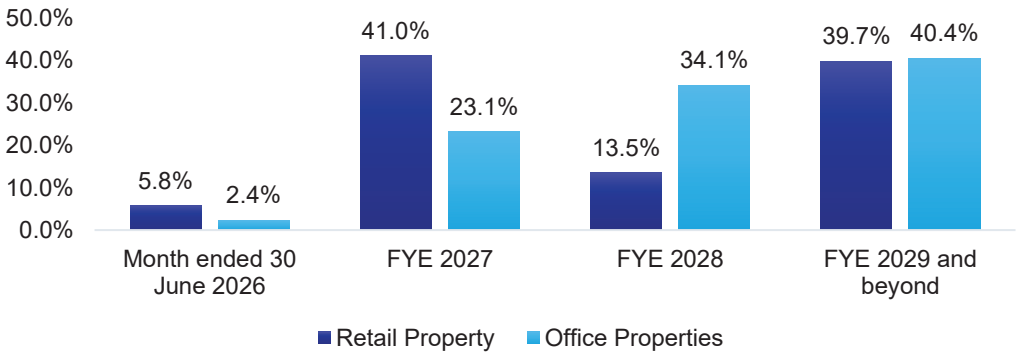

The Manager is committed to continuously maintain and seek property enhancement opportunities to further improve building efficiency, property value, its appeal towards tenants and consequently, returns from the Subject Properties.

The Manager also actively engages and negotiates lease renewals early with existing tenants to ensure tenant retention as well as to source for new tenants with the goal of realising positive rental reversion and incorporating contractual periodic rental step-up provisions in tenancies to provide an additional source of growth.

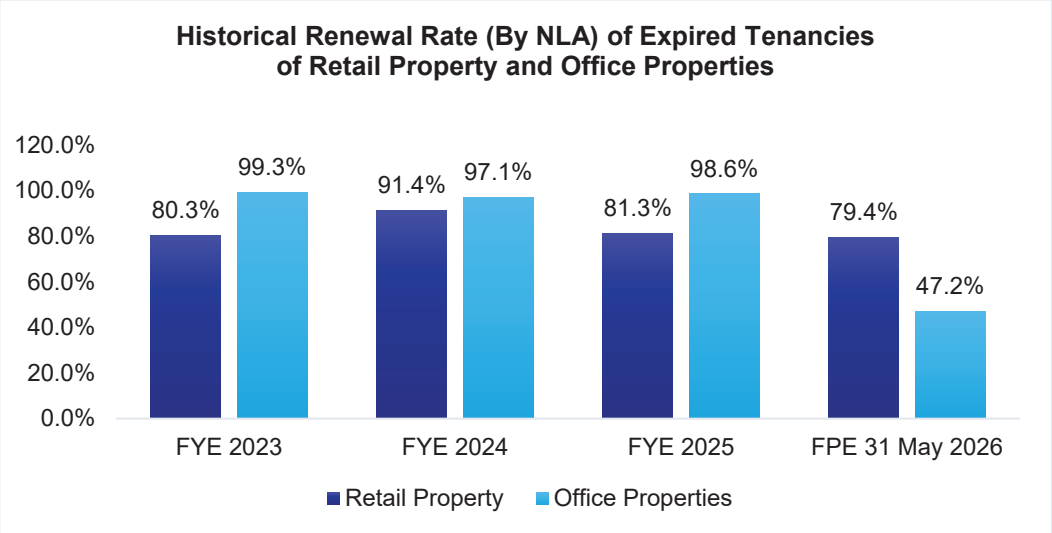

In this regard, the Retail Property and the Office Properties have a well-staggered lease expiry profile with a stable and visible cashflow, and the renewal rates of expired tenancies have remained high for the past 3 FYEs. As at 31 May 2026, the weighted average lease expiry of the Retail Property by NLA is approximately 2.35 years, and the weighted average lease expiry of the Office Properties is approximately 2.08 years.

The following chart sets out the tenancy expiry profile of the Retail Property and Office Properties based on the Committed Occupied NLA as at 31 May 2026. The Retail Property and Office Properties have a staggered tenancy expiry profile, where 53.2% and 74.5% of the respective tenancies of the Retail Property and Office Properties will only expire after the FYE 2027. This provides income visibility for IOIPG REIT while maintaining the flexibility to capture potential rental reversions upon lease renewal.

**Tenancy Expiry Profile of Retail Property and Office Properties by Committed Occupied NLA**

The chart below sets out the historical renewal rate by NLA of the expired tenancies of the Retail Property and Office Properties for the past 3 financial years and the FPE 31 May 2026.

Based on historical renewal rates, the Manager expects that tenancies that are expiring (which have not been contracted to be renewed) will be renewed or be occupied by new tenants.

**(iv) Hotel master leases structure provides income stability and offers downside protection with potential to benefit from future rental growth**

The Hotel Properties will be leased to the Master Lessees pursuant to the Hotel Master Lease Agreements, which are structured to provide downside protection and stability through a guaranteed rent component with upside potential provided by the variable rent component.

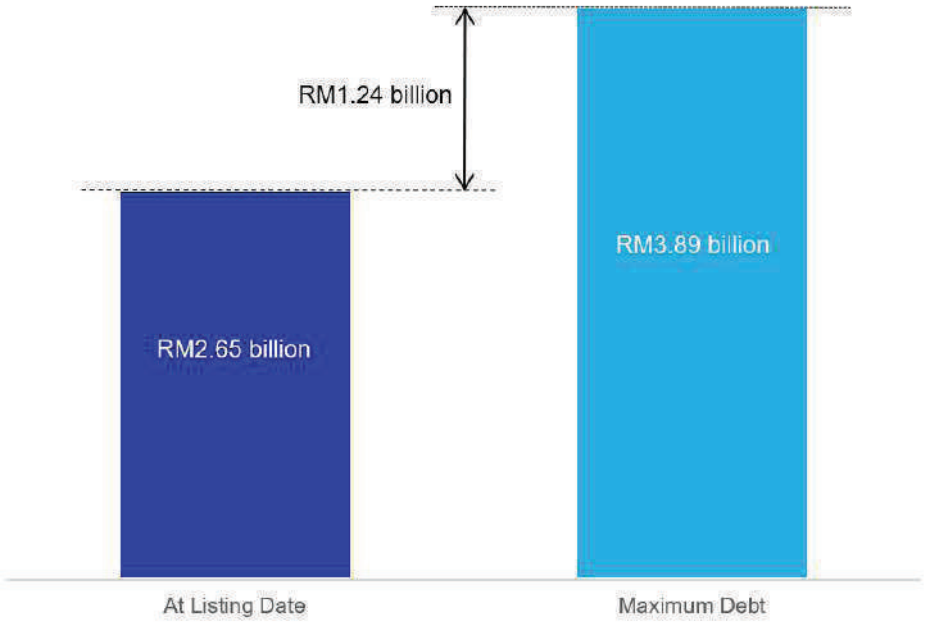

Under the Hotel Master Lease Agreements, IOIPG REIT will receive master lease income which is determined based on the higher of the Guaranteed Rent (being a fixed monthly rental sum) and the Variable Rent (determined based on 90% of Net GOP of the relevant Hotel Property). The Guaranteed Rent component provides downside protection for IOIPG REIT as it provides for a minimum rental payment regardless of the performance of the Master Lessee, mitigating any potential risk on income caused by uncertainty and volatility of global economic conditions. The Variable Rent on the other hand allows IOIPG REIT to benefit from the upside of improvements in the Net GOP of a Hotel Property.

**2.3.5 Prudent capital structure and active capital management**

**(i) Conservative gearing level with ample debt headroom**

Upon Listing, based on the Pro Forma Consolidated Statement of Financial Position, IOIPG REIT will have total indebtedness of approximately RM2.65 billion, representing approximately 34.1% of the Total Asset Value of approximately RM7.79 billion.

This gearing ratio is below the prescribed limit of 50.0% of the total asset value of a REIT under the REIT Guidelines, providing IOIPG REIT with sufficient headroom of up to approximately RM1.24 billion based on the Total Asset Value of approximately RM7.79 billion to capitalise on future opportunities including acquisitions or AEIs and before accounting for further increase from any future acquisition(s).

**(ii) Active management to optimise capital structure**

The Manager aims to optimise IOIPG REIT's capital structure and cost of capital to manage borrowing cost efficiency to improve returns to Unitholders. The Manager also intends to use an appropriate combination of debt and equity to fund future acquisitions and AEIs to ensure capital efficiency.

In addition, the Manager does not envisage any significant capital expenditure to be incurred in the next 18 months save for the expansion and renovation of the Subject Properties to be carried out and completed by the respective Vendors as set out in **Section 2.14.1(viii)** "Expansion and renovation of the Retail Property", **Section 2.15.4(vi)** "Expansion and renovation of Four Points by Sheraton Puchong", **Section 2.15.5(vi)** "Expansion and renovation of W Kuala Lumpur", and **Section 2.16.2(viii)** "Expansion and renovation of PFCC Towers" of this Prospectus where such planned works will be borne by the Sponsor and have been taken into account in the Appraised Value of the relevant Subject Properties.

**2.3.6 Backed by a reputable Sponsor with strong operational track record providing access to its pipeline of properties for potential acquisition opportunities in Malaysia**

Most of the Subject Properties were developed and owned by the Sponsor, IOI Properties Group Berhad, prior to their acquisition by IOIPG REIT. The Sponsor is an award-winning property developer in Malaysia with a legacy of more than 4 decades in the property development industry and was most recently named first in the "Top-of-the-Chart (RM1 billion and above revenue category)" in the 2025 Malaysia Developer Awards. Over the years, the Sponsor has also developed sustainable townships and commercial enclaves in Klang Valley and established a strong presence in Johor, Penang, Malaysia, Singapore and Xiamen, the People's Republic of China. As at the LPD, the Sponsor has a market capitalisation of approximately RM19.27 billion.

The Sponsor's commitment to IOIPG REIT is evidenced by its intention to hold a sponsor stake of up to 60.0% of the total issued fund size of 5,500,000,000 Units post-listing and further demonstrated by the ROFR granted to IOIPG REIT. The ROFR provides IOIPG REIT with access to potential future acquisition opportunities with respect to any properties proposed to be disposed of by IOIPG Group as well as any offer from a third party to purchase any asset which IOIPG Group is willing to consider. Dato' Lee has also provided an undertaking to provide both IOIPG and IOIPG REIT preferential acquisition rights as detailed in **Section 11.4.2** "Undertaking provided by Dato' Lee" of this Prospectus. The Manager intends to complement its acquisition growth strategy by exercising the ROFR or (as the case may be) the right of first refusal to be granted by Dato' Lee in respect of the Relevant Private Assets where the acquisition meets the investment objectives and investment criteria of IOIPG REIT. The Manager expects that IOIPG REIT may benefit from its close relationship with a well-recognised sponsor with an extensive development pipeline as the ROFR allows IOIPG REIT to evaluate potential acquisition opportunities from the IOIPG Group.

With the Sponsor's strong commitment, branding and reputation, IOIPG REIT is well-positioned to benefit from the Sponsor's capabilities and experience to drive growth and operational efficiencies.

### 2.3.7 Experienced and professional management team

The Directors collectively have considerable experience in the core competencies, including accounting or finance expertise, business or management expertise, real estate and assets management expertise, industry knowledge and strategic planning expertise.

Chris Chong, the Non-Independent Executive Director and CEO of the Manager, has over 25 years of experience in shopping mall development and management. He has been with the IOIPG Group for over 15 years overseeing the management and operations of the retail properties of IOIPG as well as the strategic development, operation and financial performance of the IOIPG Group's property investment portfolio in Malaysia.

The key management personnel of the Manager also have extensive experience and a strong track record in sourcing, acquiring and financing retail, hospitality, office and/or commercial-related real estate assets. The management team's industry knowledge, relationships and access to market information provide a competitive advantage in identifying, evaluating and acquiring commercial (office and/or retail) and hospitality real estate assets. Certain members of the management team have also been with the Sponsor for several years, managing, among others, the respective Subject Properties and maintain familiarity with and have in-depth knowledge of the Subject Properties in its respective locations.

The profiles of the key management personnel of the Manager and their roles are set out in **Section 6.5.1** "Expertise and experience of the Key Management Personnel" of this Prospectus.

## 2.4 INDEPENDENT PROPERTY MARKET REPORT

The Manager has engaged the Independent Property Market Researcher to prepare the Independent Property Market Report which describes the real estate markets in which the Subject Properties are located and the outlook for those markets. Please refer to **Appendix B** "Independent Property Market Report" of this Prospectus for further details.

## 2.5 VALUATION POLICIES

Independent professional valuations will be obtained annually or such other shorter interval as the Manager deems necessary and these valuations will be conducted on the bases and methods which are in accordance with the Asset Valuation Guidelines. The Manager has engaged the Independent Property Valuer to carry out a valuation of the Subject Properties as at 31 October 2025, as well as an update valuation of the Subject Properties on 31 May 2026.

The table below sets out the value for each of the Subject Properties appraised by the Independent Property Valuer:

| | Appraised Value | |
|---|---|---|
| **Subject Properties** | **As at 31 October 2025 (RM'000)** | **As at 31 May 2026 (RM'000)** |
| ***Retail Property*** | | |
| IOI City Mall | 5,100,000 | 5,150,000 |
| ***Hotel Properties*** | | |
| Putrajaya Marriott Hotel | 256,000 | 266,000 |
| Le Méridien Putrajaya | 343,000 | 343,000 |
| Moxy Putrajaya | 207,000 | 222,000 |
| Four Points by Sheraton Puchong | 128,000 | 128,000 |
| W Kuala Lumpur | 391,000 | 391,000 |
| Courtyard by Marriott Penang | 173,000 | 166,000 |
| ***Office Properties*** | | |
| IOI City Towers | 540,000 | 551,000 |
| PFCC Towers | 440,000 | 447,000 |
| **Total** | **7,578,000** | **7,664,000** |

The Manager has yet to decide on the exact date for the next valuation of the Subject Properties, but in any event, such valuation will be carried out on or before 30 June 2027, in accordance with IOIPG REIT's valuation policy.

Please refer to the Master Valuation Certificates set out in **Appendix A** "Master Valuation Certificates" of this Prospectus, which are to be read together with the full valuation reports for the Subject Properties dated 9 April 2026. Copies of the full valuation reports are available for inspection at the registered office of the Manager at Level 3A, IOI City Tower 2, Lebuh IRC, IOI Resort City, 62502 Putrajaya, Wilayah Persekutuan (Putrajaya), Malaysia, for a period of 12 months from the date of this Prospectus.

## 2.6 TENANCY MANAGEMENT

The tenancy agreements entered into for the Subject Properties include terms and conditions relating to the rental rate, term of the tenancy, provision of deposits as well as renewal and termination of the tenancy. These terms and conditions may vary and be negotiated on a case-by-case basis to accommodate the specific needs of tenants and the landlord.

### (i) Retail Property

The tenancy agreements entered into in respect of the Retail Property are generally for terms of one year to 3 years. The landlord may grant the tenant a renewal of the tenancy agreement upon expiry of the initial term, subject to any revision in the rent upon terms to be agreed. The tenant's right to exercise the option to renew is subject, among others, to the following:

(a) the tenant shall make a written request to the landlord of its intention to renew the tenancy agreement at least 6 months before the expiration of the term of the tenancy;

(b) there shall not be any breaches or non-observance by the tenant of the terms and conditions of the tenancy agreement;

(c) the tenant shall execute a new tenancy agreement and make payment of the increased security deposit, utilities deposit or any other deposits or charges;

(d) the tenant shall make good all damage caused by the tenant within or outside the demised premises or other parts of the Retail Property; and

(e) the tenant has upgraded the demised premises in the manner and form required by the landlord.

Based on a typical retail tenancy of the Retail Property, the monthly rent payable by the tenants will be the aggregate sum of three components: (1) base rent or percentage rent (which is calculated by reference to a fixed percentage of the tenant's total monthly gross sales turnover), whichever is higher; (2) service charge; and (3) promotional charge. The service charge is a contribution paid by tenants towards the operating expenses of the relevant Subject Property while the promotional charge is a contribution either on a lump sum basis or on a per sq ft basis assessed on each tenant to fund the promotional and/or advertisement expenses of the Retail Property. Rent, service charges and promotional charges are payable monthly. Otherwise, the monthly rent payable by tenants of the Retail Property could also comprise base rent only arrangements, percentage rent only arrangements, or a combination of both base rent and percentage rent arrangements depending on the terms of the respective tenancy agreements.

Tenants are required to provide a security deposit equivalent to 3 months of monthly rental. All tenants are also required to provide fit-out, renovation, restoration and mailbox deposits. Security deposits are held on an unsecured basis and do not bear interest on the tenant's behalf.

Under the tenancy agreement, a tenant may also be liable to pay the landlord utilities charge for, among others, all electricity charges for lighting, connection, supply and others, water, gas, telecommunication services, air-conditioning, sewerage services and any other utility service charges (as the case may be) within the tenanted premises.

In the event the tenant terminates the tenancy agreement prior to the expiry date of the tenancy agreement, the landlord may re-enter the demised premises and may forfeit the deposits paid by the tenant, and the tenant is required to pay to the landlord liquidated and ascertained damages equivalent to the remainder of the monthly rent for the whole of the unexpired period of the term in addition to other damages and arrears that may be applicable for the breaches by the tenant under the tenancy agreement.

**(ii) Hotel Properties**

The Trustee as lessor, the Manager, and each of the Master Lessees as lessee have entered into the Hotel Master Lease Agreements in respect of each of the Hotel Properties for the lease of the relevant Hotel Properties upon the terms and conditions set out in the Hotel Master Lease Agreements. The Hotel Master Lease Agreements have a term of 10 years, with an option to renew for another 10 years.

Under the Hotel Master Lease Agreements, the rent payable by the Master Lessees is determined based on the higher of:

(a) the Variable Rent; or

(b) the Guaranteed Rent, being:

(i) in respect of Putrajaya Marriott Hotel, a fixed monthly rental of RM670,000, equivalent to an annual rental of RM8,040,000;

(ii) in respect of Le Méridien Putrajaya, a fixed monthly rental of RM875,000, equivalent to an annual rental of RM10,500,000;

(iii) in respect of Moxy Putrajaya, a fixed monthly rental of RM625,000, equivalent to an annual rental of RM7,500,000;

(iv) in respect of Four Points by Sheraton Puchong, a fixed monthly rental of RM500,000, equivalent to an annual rental of RM6,000,000;

(v) in respect of W Kuala Lumpur, a fixed monthly rental of RM1,000,000, equivalent to an annual rental of RM12,000,000; and

(vi) in respect of Courtyard by Marriott Penang, a fixed monthly rental of RM570,000, equivalent to an annual rental of RM6,840,000.

Please refer to **Section 14.5** "Salient Terms of the Hotel Master Lease Agreements" of this Prospectus for details of the Hotel Master Lease Agreements.

**(iii) Office Properties**

The tenancy agreements entered into in respect of the Office Properties are generally for terms of 3 years, with certain tenants granted an option to renew for a further term of 3 years on the same terms and conditions but subject to a revised monthly rent at the prevailing market rate.

Based on a typical tenancy agreement of an Office Property, tenants are generally required to pay their monthly rent in advance. Tenants are also required to provide a rental deposit of approximately 3 months' rent. Rental deposits are unsecured and do not bear interest. All tenants are also required to provide utilities and renovation / reinstatement deposits, as well as a service charge which is payable monthly.

Under the tenancy agreements for the Office Properties, tenants are normally responsible for payment of their own utilities. Tenants are generally also responsible for repairs, as well as the payment of all other expenses relating to the interior of the premises, while the landlord is generally responsible for repairing the exterior and main structure of the building.

In the event the tenant terminates the tenancy agreement prior to the expiry date of the tenancy agreement, the landlord may forfeit the deposits paid by the tenant, and the tenant is required to pay to the landlord liquidated and ascertained damages equivalent to the remainder of the monthly rent for the whole of the unexpired period of the term in addition to other damages and arrears that may be applicable for the breaches by the tenant under the tenancy agreement.

## 2.7 HOTEL MANAGERS

The Hotel Managers are appointed in respect of the relevant Hotel Properties pursuant to the respective hotel management agreements and its related agreements to provide, among others, the following services for the Hotel Properties (subject to the terms of the respective hotel management agreements and its related agreements):

(i) setting of rates, charges, discounts and other terms and policies for the use of guest rooms and other facilities and services of the relevant Hotel Property;

(ii) collection of revenue from the operation of the relevant Hotel Property and taxes to be collected from guests and customers of the relevant Hotel Property, and the remittance of such taxes to the applicable governmental authority;

(iii) administration of all bank accounts for the relevant Hotel Property;

(iv) supervision or performance of maintenance, repairs and capital improvements for the relevant Hotel Property;

(v) the purchase or lease of all furniture, fixtures, equipment, interior and exterior signs, as well as other improvements and personal property used in the operation of the relevant Hotel Property that the relevant Hotel Manager deems necessary or advisable for the operation of the relevant Hotel Property;

(vi) purchase, lease or licence of all technology that the relevant Hotel Manager deems necessary or advisable for the operation of the relevant Hotel Property;

(vii) negotiation, execution and administration of all (i) agreements, purchase orders and similar arrangements for the purchase of all supplies and services, and (ii) licences for the right to use any third-party proprietary property, that the relevant Hotel Manager deems necessary or advisable for the operation of the relevant Hotel Property;

(viii) negotiation, execution, administration and termination of all contracts for the use of guest rooms, banquet and meeting facilities and other hotel facilities and services;

(ix) negotiation and execution of any credit obligation in connection with trade payables for goods and services incurred in the ordinary course of business in the operation of the relevant Hotel Property;

(x) provision of all food and beverage services to guests and customers of the relevant Hotel Property; and

(xi) development and implementation of a sales and marketing program for the relevant Hotel Property.

## 2.8 INSURANCE

The Subject Properties are currently insured under property and liability insurance policies taken out by the landlords of the Subject Properties, with coverage features and insured limits that are in accordance with industry practice in Malaysia. Currently, IOIPG REIT's insurance policies for the Subject Properties include property damage caused by fire, lightning, flood or explosion, consequential losses (including loss of revenue), machinery breakdown, equipment damage, theft, accidental damage and public liability but do not in general cover acts of war, outbreak of contagious diseases, contamination or other damages caused by breaches of environmental law.

The Subject Properties are additionally insured under operations-related insurance policies taken out by the landlords of the Retail Property and Office Properties and by the respective Master Lessees in respect of the Hotel Properties under the Hotel Master Lease Agreements. The coverage features and insured limits of these operations-related insurance policies are in accordance with industry practice in Malaysia, and include workers' compensation insurance and contract works and contract works liability insurance.

There are no significant or unusual excess or deductible amounts required under these policies. There are, however, certain risks that are not covered by such insurance policies, pursuant to typical exclusions such as war and radioactive or nuclear risks.

The relevant insurance policies will be endorsed in favour of the Trustee effective from the completion date of the SPAs.

## 2.9 FIRE PROTECTION

The fire protection system for each of the Subject Properties is manned on a 24-hour basis at a fire command centre with the central monitoring system linked to the Fire and Rescue Department of Malaysia *(Jabatan Bomba dan Penyelamat Malaysia)*. The Subject Properties have fire safety personnel who form part of an emergency response team and who ensure that all fire protection systems and equipment are in working order. Each of the Subject Properties is also equipped with a fire protection system which includes a fire detection system, fire suppression system and smoke management system. All the Subject Properties also have fire sprinkler systems with water tanks and wet riser. Each of the Subject Properties has maintenance contracts for these fire protection systems.

## 2.10 RETAIL / HOTEL / OFFICE PROPERTY COMPETITION

The Subject Properties compete with other retail, hotel and office properties in Malaysia. In addition, IOIPG REIT competes with other key players in the retail, hotel and office property market for potential acquisitions in Malaysia.

The Manager believes that the Subject Properties are well-positioned to compete within their respective market segments given their strategic locations and in the case of the Retail Property and the Office Properties, the diverse tenant mix and relatively stable tenancies and integration within established townships support their competitive positioning. In respect of the Hotel Properties, the master lease structures under the Hotel Master Lease Agreements provide income stability to IOIPG REIT and are intended to mitigate its direct exposure to short-term fluctuations in hotel operating performance arising from competitive pressures.

Please refer to **Appendix B** "Independent Property Market Report" of this Prospectus for further details.

## 2.11 CAPITAL EXPENDITURE

There is continuous upgrading, renovations and refurbishment programmes in respect of the Subject Properties, where appropriate and feasible, from time to time, to ensure that the Subject Properties remain competitive in terms of attracting and/or retaining new tenants, shoppers and hotel guests (as the case may be). Further, any material defects and encumbrances identified in the building audits undertaken for each of the Subject Properties commissioned by IOIPG REIT have been rectified prior to the Listing Date save for such defects and encumbrances which have been disclosed in this Prospectus. As such, the capital expenditure during the Projection Period 2027 is projected to be minimal, and such capital expenditure incurred will also be borne by the Sponsor. Under the SPAs in relation to Title 1 and Title 2 and W Kuala Lumpur, the relevant Vendors together with ICMSB, MDSB and the Sponsor as the obligors have also undertaken to, among others, keep the Trustee (on behalf of IOIPG REIT) as the purchaser, fully indemnified against all capital expenditure, losses, damages, costs, expenses and outgoings which the Trustee (on behalf of IOIPG REIT) as the purchaser may incur or be liable for in respect of any claim, demand, liability, action, proceedings or suits arising out or in connection with, among others, certain warranty(ies) provided by the relevant Vendors. Other than the expansion and renovation plans stated in this Prospectus that have been taken into account in the Appraised Value of the relevant Subject Properties, the Manager does not envisage any significant capital expenditure to be incurred in the next 18 months.

Please refer to **Sections 2.14** to **2.16** of this Prospectus for further details on the expansion and renovation plans in respect of each Subject Property (where relevant), as well as **Section 4.4.8** "Capital expenditures" and **Section 14.3** "Salient Terms of the SPAs" of this Prospectus for further details on the capital expenditures to be borne by the Sponsor.

## 2.12 LEGAL PROCEEDINGS

As at the LPD, none of the Subject Properties nor the Manager is currently involved in any material litigation nor to the best of the Manager's knowledge, is any material litigation currently contemplated or threatened against IOIPG REIT or the Manager.

## 2.13 EESG AWARENESS

### 2.13.1 Economic and Environment

#### (i) Economic approach

The Subject Properties are designed to deliver long-term value through a balanced consideration of economic, social, and environmental factors. Value creation extends beyond financial performance and encompasses the enhancement of communities, environmental stewardship, and the integration of future-ready development principles. Through the adoption of forward-thinking design approaches, the Subject Properties are positioned to respond to evolving market needs while contributing to the quality of life of residents, tenants, and the wider community.

The Subject Properties, comprising green-certified buildings and integrated mixed-use townships, incorporate sustainability considerations within their planning and design. Accessibility forms a key component of the development approach, with the Subject Properties strategically aligned with public transportation networks and essential road infrastructure to enhance connectivity and support transit-oriented lifestyles. The incorporation of low-carbon infrastructure and energy-efficient design features contributes towards minimising environmental impacts while enhancing user comfort, liveability, and the long-term value of the Subject Properties.

#### (ii) Energy efficiency and renewable energy initiatives

The Vendors of the Subject Properties incorporate energy and water efficiency, waste management and sustainable material usage in their tenant handbooks to enhance the sustainability of individual tenancies. Periodic checks, verification and energy audits are conducted to ensure compliance with best practices. In addition, the Subject Properties are equipped with a building management system, which is designed to monitor energy consumption through real-time data logging and pre-configured setpoints to facilitate timely corrective actions in the event of equipment operation or energy consumption anomalies to ensure that energy consumption remains optimal and resources are used efficiently and any inefficiencies are promptly addressed.

To further support sustainability initiatives and enhance environmental responsibility, photovoltaic panels have been deployed on the rooftop of the Retail Property to harness renewable energy, which is Malaysia's largest solar installation for a commercial retail property. In the FYE 2025, these photovoltaic panels generated 7,375 megawatt-hours of solar energy, allowing the Retail Property to benefit from cost savings of around RM3.7 million. Furthermore, the Subject Properties within IOI Resort City benefit from a centralised district cooling system which provides chilled water to malls, hotels and offices within IOI Resort City, designed to adapt to demand fluctuations according to operation hours. These allow operational costs to be lowered through energy savings. In recognition of its environmental leadership, the Retail Property was awarded numerous sustainability recognition such as the Best Sustainable Mall Initiative by the Tourism Industry Awards 2025, a Platinum Award for Outstanding Green Commercial Building at the Malaysia GBC Leadership in Sustainability Awards 2024, runner-up for the EE Designed Building Category – IOI City Mall Phase 2 at the National Energy Awards (NEA) 2024, and the Energy Efficient Building Award (New and Existing Building) – IOI City Mall Phase 2 at the ASEAN Energy Awards 2024. The installation of new solar panels at PFCC Towers and IOI City Towers was also completed in September 2025 and November 2025, respectively.

Certain Subject Properties are also designed to achieve green building certification. IOI City Towers won the Gold Award in the "Below 10 Years - Non-strata Office" category at The Edge Malaysia Best Managed & Sustainable Property Awards (BMSPA) 2025 and achieved Silver status in the GBI certification. The Retail Property and Moxy Putrajaya are also GBI-certified. W Kuala Lumpur also holds a Platinum Malaysian Green Real Estate (GreenRE) Certification.

**(iii) EV charging infrastructure and green mobility initiatives**

The Subject Properties continue to advance their commitment to EESG principles by supporting Malaysia's transition towards low-carbon mobility through the expansion of EV infrastructure.

As at the LPD, a total of 33 EV charging stations have been installed within the premises of the Retail Property through strategic collaborations with Handal Green Mobility Sdn. Bhd., Tesla Sdn Bhd, PixelByte Sdn Bhd and Gocar Mobility Sdn Bhd. The conversion of selected car park bays into EV charging stations facilitates the adoption of cleaner transportation alternatives, contributing to the reduction of greenhouse gas emissions and supporting national sustainability goals. The initiative also positions the Retail Property as an enabler of green mobility while aligning with broader climate action priorities, including carbon footprint reduction and energy transition efforts.

The deployment of EV infrastructure is supported by collaborations with reputable industry players, ensuring operational reliability, safety standards, and service quality. From a leasing strategy perspective, the onboarding of EV-related tenants such as BYD and Proton e.MAS reinforces IOIPG REIT's commitment to sustainability-led partnerships. The Manager will continue to proactively identify and engage additional automotive and EV ecosystem partners to strengthen the green mobility ecosystem within the Retail Property.

To enhance the shopper experience across IOIPG's retail properties, the CLUB IOI mobile app continues to evolve as a unified loyalty and lifestyle platform, delivering integrated, user-centric digital services that promote convenience, engagement and sustainable living. In addition to in-app parking payment and IOI Points redemption for parking fees, the app offers season pass parking renewal, mall directory and wayfinding navigation, membership tier upgrades and exclusive privileges based on annual spending, loyalty rewards, campaign participation and merchant promotions, enabling a seamless and rewarding digital experience while reducing reliance on traditional paper-based processes.

As part of its digital transformation and sustainability roadmap, CLUB IOI is also exploring EV charging integration with selected charging operators, enabling members to enjoy exclusive charging privileges, preferential rates and, in the future, the ability to redeem CLUB IOI Points for EV charging sessions through a single platform. This initiative supports the adoption of cleaner mobility solutions while enhancing convenience for EV users visiting IOIPG's properties.

Collectively, these initiatives are designed to strengthen digital engagement, foster customer loyalty and support environmentally responsible behaviours by encouraging digital-first interactions and sustainable transportation. Through the integration of loyalty, mobility, parking and lifestyle services within a single ecosystem, CLUB IOI aims to create a more connected, sustainable and future-ready retail experience for shoppers.

**(iv) Water efficiency measures**

The following initiatives are undertaken at the Subject Properties in order to improve water efficiency:

**(a)** **Regular maintenance and checks** - Weekly inspections of water taps and toilet flush systems are conducted to identify equipment defects and prevent wastage. Routine checks are also performed on incoming water pipelines to detect potential leakages;

**(b)** **Optimised chiller and cooling tower usage** - Reducing the operation time of chillers and cooling towers to conserve water and energy;

**(c)** **Water management strategies** - Exploring innovative water management strategies, including proportional distribution of water supply based on usage for amenities, equipment, and tenant consumption;

**(d)** **Feasibility study for water storage and harvesting** - Conducting an ongoing feasibility study on the addition of water tank storage and water harvesting systems for non-human usage (such as for watering of plants and toilet flush systems), despite space constraints;

**(e)** **Installation of water-saving fittings** - Progressive installation of water-saving fittings throughout the Subject Properties, such as sensors to turn off water supply if it is not used and the installation of water tank level sensor rods and float valves to prevent any overflow of water; and

**(f)** **Pressure regulation** - Installation of pressure relief valves to regulate water pressure from the supply system, reducing overall water usage.

By integrating smart technologies, enhancing user experiences, and adopting responsible practices, including green and blue infrastructure, energy-efficient systems, and passive design strategies (where applicable), IOIPG REIT seeks to create value for modern communities and businesses while supporting long-term economic and environmental goals.

**2.13.2 Social**

**(i) Employee wellbeing, safety and development**

IOIPG REIT is committed to cultivating a safe, inclusive, and high-performing workplace with a strong safety culture and effective risk management practices. Employee engagement will be strengthened through a range of training programmes, leadership development initiatives, and sustainability awareness efforts, enabling employees to play an active role in advancing IOIPG REIT's sustainability journey.

**(ii) Human rights and labour practices**

IOIPG REIT will uphold internationally recognised human rights principles, guided by frameworks such as the United Nations Guiding Principles on Business and Human Rights, while maintaining a zero-tolerance stance towards forced labour and child labour and ensuring fair and equitable employment practices across its operations.

**(iii) Social impact**

Stakeholder engagement in relation to sustainability matters is a core part of IOIPG REIT's operations, and it will maintain an ongoing dialogue with tenants, local communities, regulators, and industry partners.

### 2.13.3 Governance

#### (i) Ethics, Integrity and Anti-Corruption

IOIPG REIT maintains a zero-tolerance approach to corruption, underpinned by a robust Anti-Bribery and Corruption (ABC) framework.

### 2.13.4 Commitment to EESG standards

The Subject Properties are beneficiaries of the EESG initiatives implemented by the IOIPG Group. IOIPG REIT is committed to adopting the necessary approach to monitor and meet EESG standards for its tenants and potential tenants.

***(The rest of this page is intentionally left blank)***

## 2.14 RETAIL PROPERTY

The Retail Property comprises IOI City Mall. IOI City Mall represents the single largest asset within IOIPG REIT's initial asset portfolio. Based on the Appraised Value as at 31 May 2026, IOI City Mall accounts for approximately 67.2% of the aggregate Appraised Value of the Subject Properties. For the FYE 2025, IOI City Mall contributed approximately 77.0% of the Total Revenue and 74.9% of the NPI of the Subject Properties, underscoring its significance as the primary income-generating asset of IOIPG REIT.

### 2.14.1 IOI City Mall

**(i) Vendors**

ICMSB and ICPSB

**(ii) Registered Proprietors**

ICMSB and MDSB

**(iii) Address**

Lebuh IRC, IOI Resort City, 62502 Putrajaya, Sepang, Selangor

**(iv) Description**

IOI City Mall, located in Lebuh IRC, IOI Resort City, Putrajaya, is the largest shopping mall in Malaysia, offering a total NLA of 2,577,505 sq ft across 5 retail floors and housing over 850 tenants as at the LPD. The mall features a total of 13,987 parking bays spread across surface, basement and elevated car park levels.

Strategically positioned with direct access to major highways and public transport, the Retail Property is approximately 40km north of KLIA. It serves a catchment population of approximately 2.5 million from key surrounding townships including Putrajaya, Cyberjaya, Kajang, Bangi, Sepang, Puchong, and Seri Kembangan.

Phase 1 of IOI City Mall was completed in 2014 and includes key attractions such as:

- District 21, a post-apocalyptic themed indoor adventure park;
- Icescape, an Olympic-sized ice-skating rink;
- Golden Screen Cinemas featuring GSC Maxx and 4DX halls;
- Wangsa Bowl, a contemporary bowling centre with 38 lanes;
- IOI City Farm, an edutainment space showcasing an "indoor living planet" concept; and
- Other anchor tenants such as Parkson, Lotus's and HomePro.

Phase 2 of IOI City Mall was completed in 2022 and includes key attractions such as:

- IOI Grand Hall, a 40,000 sq ft multi-purpose event space;
- IOI Sports Centre, which is equipped with 15 badminton courts, 2 covered futsal arenas and 4 pickleball courts; and
- Anchor tenants such as AEON and a Golden Screen Cinemas expansion branch which features an IMAX hall.

The Retail Property also houses a musolla that accommodates Friday congregational prayers for added convenience to shoppers.

The Retail Property's scale, accessibility, comprehensive amenities, diversified retail mix and commitment to sustainability position it as a premier lifestyle and commercial hub in Malaysia. It has also been awarded the following recognitions such as a Platinum Award for 3 years (2025 - 2028) by Malaysia Tourism Quality Assurance (MyTQA), Best Muslim-Friendly Retail & Commercial Hub of the Year by the World Islamic Tourism & Trade Awards 2026, Best Shopping Location Putrajaya by the Tourism Industry Awards 2026, Best Sustainable Mall Initiative by the Tourism Industry Awards 2025, a Gold Award for "The Edge Malaysia Best Managed & Sustainable Property Award 2023", the "Nation's Best Lifestyle Shopping Mall" in 2022 and 2023 by the Brand Laurette-Best Brands Awards established by The World Brands Foundation, and the winner of the FIABCI Malaysia Property Award in the Retail Category in 2023.

**(v) Tenant profile of the Retail Property**

**(a) Top 5 tenants of the Retail Property**

| Others | 1.7 | 0.9 |
| **Total** | **100.0** | **100.0** |

**(vi) Average Occupancy Rate and Average Rental Rate of the Retail Property**

The table below sets out the Average Occupancy Rate and Average Rental Rate of the Retail Property.

| Period | Average Occupancy Rate (%) | Average Rental Rate (RM per sq ft) |
|---|---|---|
| FYE 2023 | 86.1 | 9.72 |
| FYE 2024 | 96.8 | 10.77 |
| FYE 2025 | 98.3 | 11.80 |
| FPE 31 May 2026 | 96.9 | 12.64 |

**(vii) Tenancy expiry profile of the Retail Property**

The table below illustrates the Retail Property's expired tenancies and renewal rates of expired tenancies for the past 3 financial years and FPE 31 May 2026.

| Period | Number of tenancies expired | NLA of expired tenancies (sq ft) | Renewal rates by number of expired tenancies (%) | Renewal rates by NLA of expired tenancies (%) |
|---|---|---|---|---|
| FYE 2023 | 182 | 293,135 | 80.8 | 80.3 |
| FYE 2024 | 201 | 847,167 | 78.6 | 91.4 |
| FYE 2025 | 200 | 286,263 | 80.0 | 81.3 |
| FPE 31 May 2026 | 338 | 1,015,628 | 77.8 | 79.4 |

The table below illustrates the tenancy expiry profile of the Retail Property as at 31 May 2026.

| Period | Number of tenancies expiring | Percentage of Committed Occupied NLA expiring (%) | Percentage of Rental Income expiring (%) |
|---|---|---|---|
| Month ended 30 June 2026 | 9 | 5.8 | 1.7 |
| FYE 2027 | 288 | 41.0 | 37.7 |
| FYE 2028 | 207 | 13.5 | 19.6 |
| FYE 2029 and thereafter | 264 | 39.7 | 41.0 |
| **Total** | **768** | **100.0** | **100.0** |

**(viii) Expansion and renovation of the Retail Property**

As at the LPD, as part of the asset optimisation strategy for the Retail Property, the Vendor has undertaken a series of AEIs involving the reconfiguration, expansion and consolidation of existing lots, including selective conversion of part of the common areas and car park areas (in the form of additional / enlarged retail and storage area(s)) into lettable space to enhance space efficiency, tenant mix and rental performance.

During the FYE 2025 and up to the LPD, a total of 10 AEIs were completed across the lower ground floor, ground floor and second floor of the Retail Property, including:

(a) reconfiguration and expansion of existing lots to enhance the F&B cluster located on the lower ground floor of the Retail Property;

(b) repositioning of tenant mix and consolidation at the ground floor of the Retail Property to improve layout efficiency and rental performance;

(c) space consolidation and format upgrading on the second floor of the Retail Property, including the introduction of new tenants and the conversion of push carts into kiosks; and

(d) introduction of a larger format concept store.

These initiatives resulted in a net increase of approximately 13,468 sq ft to the total NLA of the Retail Property, resulting in an improvement in rental income of the Retail Property.

As at the LPD, certain other facilities in the Retail Property are also being upgraded and optimised to enhance overall quality, comfort, and hygiene standards, and to unlock additional NLA, and are targeted to complete in October 2026.

Prior written permission of the relevant local authority and a new CCC is required for the conversion of such common areas and car park areas into additional / enlarged retail and storage area(s), and it is expected that revised building plan(s) will also be submitted for the inclusion of the converted area as NLA. The approval from the relevant authorities on the building plan(s) and a new CCC is expected to be obtained by January 2027. Please refer to **Section 5.1.10** of this Prospectus for further details.

The Manager will continue to review the use of GFA at the Retail Property and where appropriate and feasible, convert such GFA into yielding NLA.

## 2.15 HOTEL PROPERTIES

The Hotel Properties comprise Putrajaya Marriott Hotel, Le Méridien Putrajaya, Moxy Putrajaya, Four Points by Sheraton Puchong, W Kuala Lumpur and Courtyard by Marriott Penang.

### 2.15.1 Putrajaya Marriott Hotel

**(i) Vendor**

RVDSB

**(ii) Registered proprietor**

RVDSB

**(iii) Address**

Lebuh IRC, IOI Resort City, 62502 Putrajaya, Sepang, Selangor

**(iv) Description**

Putrajaya Marriott Hotel is a 5-star rated hotel located in Lebuh IRC, IOI Resort City, Putrajaya, Malaysia and is strategically located within walking distance to IOI City Mall, about 30km south of KL City Centre, and 40km north of KLIA. As at the LPD, the hotel operates with 487 saleable hotel rooms, with 1 presidential suite closed since 15 May 2021 due to its overall condition which adversely affected its suitability and marketability as a hotel guest room, bringing the total number of rooms to 488. There are currently no plans to refurbish or convert the presidential suite.

The hotel comprises one grand ballroom (Marriott Putrajaya International Convention Centre), one garden ballroom, 14 meeting rooms, one business centre, and 5 F&B outlets. The property has 23 surface car park bays and 190 basement car park bays.

**(v) Average Occupancy Rate and Average Daily Rate of Putrajaya Marriott Hotel**

The table below sets out the Average Occupancy Rate and Average Daily Rate of Putrajaya Marriott Hotel.

| Period | Average Occupancy Rate (%) | Average Daily Rate (RM) |
|---|---|---|
| FYE 2023 | 42.4 | 295 |
| FYE 2024 | 59.0 | 313 |
| FYE 2025 | 55.3 | 365 |
| FPE 31 May 2026 | 57.4 | 351 |

**(vi) Expansion and renovation of Putrajaya Marriott Hotel**

As at the LPD, the Vendor has completed the refitting and renewal of the guest rooms, 4 meeting rooms located at the ground floor, the lobby area and the restaurants of Putrajaya Marriott Hotel, as well as the enhancement of Kiddies World, an on-site children's play area, to enhance the experience of hotel guests.

Revised building plan(s) for the renovated areas mentioned above has been submitted and is currently pending to be approved by the local authority. The approvals in respect of the building plan(s) and the issuance of a new CCC for the renovated areas (other than the 4 meeting rooms) are expected to be obtained by December 2026. In respect of the 4 meeting rooms, approval for such renovation has been obtained and the CCC for these works is expected to be issued by December 2026. The relevant Vendor has provided an undertaking to the Manager and the Trustee to obtain the new CCC in relation to the said areas from the relevant authorities at the Vendor's own cost and expense.
